

ALI ZULFIQAR

Full Stack Web Developer • AI & Automation

Lahore, Pakistan • ali.polymath.dev@gmail.com • +92-327-100-0430

PROFESSIONAL SUMMARY

Full-Stack Developer with 3+ years of experience building scalable web applications and AI-powered security tools. Proficient in React, Next.js, Node.js, Vue.js, and modern AI/LLM frameworks including Claude API, OpenAI Codex, and LangChain. Proven track record in security tooling, developer productivity, workflow automation, and cross-functional collaboration. Available in EST and PKT time zones.

WORK EXPERIENCE

Software Engineer | Contrive Solutions Sep 2025 – May 2026

Lahore, Pakistan

- Refactored a Salesforce security scanner, reducing false-positive vulnerability reports by ~30% and cutting average scan time through engine-level optimizations.
- Built a VS Code / Cursor IDE extension for real-time security scanning, enabling developers to detect and auto-resolve vulnerabilities without leaving their editor — reducing context-switching for the dev team.
- Redesigned the core scan runner engine from scratch, refactoring legacy code to improve modularity and cutting onboarding time for new engineers on the codebase.
- Delivered and maintained the full product dashboard UI using React and Redux, serving as the primary interface for scan results, project management, and reporting
- Integrated GitLab and GitHub APIs into the security pipeline, enabling automated scanning on pull requests.
- Automated project-level Claude AI integration to streamline repetitive developer workflows.

Full Stack Developer | Cybil Tech Jan 2022 – Aug 2025

Lahore, Pakistan

- Built thecurrent.pk — a high-traffic dynamic news website using Vue.js, Axios, Tailwind CSS, and PHP, supporting multiple content categories and real-time updates.
- Refactored Qwesty — a Real Estate & Property Management Portal in Next.js, improving page load performance and delivering intuitive dashboards for property owners and agents.
- Built jabalbuilders.com — a construction company website in Next.js, MongoDB, and Vercel, with a full CRUD admin dashboard for managing project listings.
- Developed a custom push notification API in Node.js for app after Firebase's feature became paid.

TECHNICAL SKILLS

Front-End: React.js, Next.js, Vue.js, Angular.js, TypeScript

Back-End: Node.js, Express.js, Nest.js, FastAPI

Databases: PostgreSQL (Prisma, Sequelize), MongoDB (Mongoose), MySQL

AI & LLM: Claude API, OpenAI Codex, LangChain, n8n, Cursor AI, V0, Lovable

Security & DevOps: Vulnerability Scanning, Docker, Git/GitHub, GitHub Actions, Vercel, Linux

Styling & UI: Tailwind CSS, Shadcn/ui, MUI, Bootstrap, SCSS, Framer Motion, GSAP, Figma

APIs & Integrations: REST, GraphQL, WebSocket, Stripe, Cloudinary, JWT, GetStream, Axios

EDUCATION

Bachelor of Computer Science

Govt. Dayyal Singh Graduate College, Lahore

Intermediate in Computer Science

Govt. Shalimar Graduate College, Lahore

Matriculation in Computer Science

Laurel Grammar School, Lahore
